Re: QAPP and Phase I Modifications Approval

Dear Mr. Doyle:

This letter provides specific approval for the Quality Assurance Project Plan (QAPP) for the Waukegan Manufactured Gas and Coke Plant Site. A copy of the signature page is enclosed. Barr Engineering transmitted to me a copy of Ch2M Hill's laboratory chain-of-custody procedures as requested in my project plan approval letter of November 15, 1991. Barr Engineering noted that the November 15 letter did not specifically note the QAPP in its approval. This letter serves to clarify that approval. In addition, this letter also provides approval of Barr's Modifications/Additions to Phase I Investigative Procedures letter of December 16, 1991.

If you have any questions concerning this matter, please free to call me.

Sincerely,

A handwritten signature in black ink, appearing to read "Cindy J. Nolan".

Cindy J. Nolan
Remedial Project Manager
